SUMMARY

Creative UI/UX designer specializing in user-centered design with a track record of developing scaleable and engaging products. Successfully redesigned a mobile app interface, resulting in improved user retention, and led the design of a web platform that streamlined navigation. Overhauled an e-commerce checkout process to enhance usability and customer satisfaction. Proficient in visual design, wireframing, prototyping, and tools such as Figma, AdobeXD, and Sketch, with extensive experience in user research and usability testing.

EXPERIENCE

Product Designer Intern

Erilearn

November 2024 - January 2025, Lagos, Nigeria.

- Created user-centric wireframes, prototypes, and interactive mockups with Figma, Adobe XD, and Sketch to align with project goals and meet accessibility standards.
- Developed personas, journey maps, and information architecture (IA) to inform design decisions and enhance user satisfaction.
- Utilised design thinking and agile methodologies to deliver high-quality design solutions within tight deadlines.
- Developed comprehensive style guides using Figma over a 3-month internship, standardizing design elements across 4 major projects to improve cross-functional team efficiency and achieve a consistent UI with 95% adherence in QA checks.
- Implemented UI Component Libraries in Figma over a 3-month period, standardizing reusable assets for 4 concurrent projects, reducing design handoff time by 30% and ensuring 98% consistency across all delivered interfaces.

Product Design Intern

Hng

January 2025 - April 2025, Lagos, Nigeria

- Contributed to the end-to-end design of a dating platform, designing core features such as onboarding, profile creation, discovery, matching, and real-time messaging, which increased projected user activation by 30%.
- Conducted user research, competitor analysis, and product discovery sessions with over 50 prospective users, uncovering key pain points and translating insights into design solutions that improved task completion rates by 28%.
- Collaborated closely with engineers throughout implementation, delivering detailed specifications and assets that reduced development rework by 20% and ensured high-fidelity execution.
- Maintained and expanded product design system, creating 25+ reusable components and standardised patterns to improve design consistency and reduce handoff time by 40%.

UI/UX Designer

Gataama

February 2025 - Present, Kampala, Uganda

- Develop wireframes and prototypes for improved user interaction.
- Implement A and B testing for various design elements, enhanced conversion rates.
- Collaborated with development team to integrate design elements, ensuring cohesive user experience.
- Monitored industry trends and technologies to sustain competitive design standards and user feedback to inform iterative design improvements.

UI/UX Designer

Honest Scholars

July 2025 - August 2025, Lagos, Nigeria

- Developed wireframes and prototypes for improved user interaction.
- Streamlined user experience through the design of intuitive interfaces, enhancing user satisfaction.
- Managed multiple projects simultaneously while maintaining high design standards.
- Monitored industry trends and technologies to remain relevant and competitive in design.

Website Designer

Pay With Play

September 2025 - November 2025, Lagos, Nigeria

- Utilised sketch and adobe suite proficiently for creating compelling visual designs.
- Provided creative solutions to complex UX problems, enhancing customer satisfaction and engagement.
- Delivered projects on time while maintaining aesthetic and functional integrity of design, contributing to positive client feedback.
- Managed multiple projects simultaneously, ensuring high-quality deliverables that met or exceeded client expectations.

EDUCATION

Physiology

Minor in Biochemistry • Lagos University Teaching Hospital, University of Lagos • Lagos, Nigeria. • 2024 • 3.95

SKILLS

- Figma skills
 - Wireframing
 - Design systems
 - Typography
 - Colour theory
 - Design thinking
 - WCAG compliance
 - Problem solving
 - Team collaboration
 - A/B testing
 - Mobile app design and Userflow
-
